FOUND DEAD

Was G. A. Ward, Superintendent of
Bridges and Buildings For
the C. & O. At Ashland.

Mr. G. A. Ward, 53, who for the
last ten or fifteen years has been the
superintendent of bridges and build-
ings on this division of the Ches-
apeake & Ohio railroad, was found dead
in his office in Ashland on Thursday.
Superintendent Ward's death was
due to heart disease.

He was one of the best known men
on this division and very popular
among those who knew him. A host
of friends mourn his sudden taking
off, and sympathize with his bereaved
family.

BOY CAST ADRIFF

Found Friends At Portsmouth, Who
Sent Him On His Way.

(Portsmouth Star.)
Little Fred Snyder, 14, of Augusta,
Ky., is without father and mother.
Fred this afternoon is on his way to
another home. He spent most of the
morning inspecting what Santa Claus
was offering in the various shops of
this city.

Fred, since the deaths of his father
and mother, had been living with a
family at Augusta, Ky., where he had
been "farmed out" by his parents be-
cause they died. It looked to Fred a
week ago that it was going to be a
dull Christmas for him. It looked
more so several weeks ago when the
folks whom he was staying with cast
him adrift and told him he had better
go to the home of his grandfather in
Winchester, O.

Fred had no money and no way of
getting to Winchester. But he was de-
termined to get to Winchester and to
the home of his grandfather. What
reception he would receive there he
knew not, but he was on his way yester-
day afternoon, walking down the
C. & O. tracks near the government
dam, when he was stopped by a kind
stranger, who when informed of the
lad's plight, brought him to Port-
smouth and placed him in a hotel for
the night.

He was turned over to the police de-
partment this morning. And incident-
ally, Fred is going to Winchester, and
isn't going to walk, either. In-
stead he rode the "cushions" this after-
noon at the expense of the city of
Portsmouth. When asked this morn-
ing by the mayor how he was going
to get to Winchester, the lad said he
would walk to the passenger station,
ask the agent what track would take
him to Winchester, and that then he
would walk until he got there.
"Did you see what Santa Claus is of-
fering the children of this city?" the
mayor asked him this morning.
"Yes," answered Freddie, "but there
won't be any Santa Claus for me."

Clarence Muse, aged 31, of Muse's
Mills, Fleming county, was rendered
unconscious in some unaccountable
manner near his home. He left home
early in the morning with an ax to
cut wood. Shortly afterward his father,
Manton Muse, found him lying on
the ground unconscious with two
wounds in his head. After regaining
consciousness he had no recollection
of anything that had happened.

The Board of City Supervisors of
Flemingsburg concluded their labors
Tuesday. They made raises of \$8,210,
listed \$1,200 in omissions and made re-
ductions of \$3,340, a net gain of \$6,

be well above the million mark.

COMPROMISED FOR \$4,000

Bracken County Man Secures Good
Sum From Standard Oil
Company.

Mr. Sylvester Reed, administrator
through Attorney M. J. Hennessey, of
Augusta, has compromised his suit for
\$30,000 against the Standard Oil Com-
pany, accepting \$4,000 as damages. In
February, 1914, Mrs. Nellie Reed, wife
of Sylvester Reed, purchased a gallon
of coal oil from a grocer at Wells-
burg, Bracken county, and when she
started to build a fire a terrific ex-
plosion took place, setting the dwell-
ing on fire, burning the woman so
badly that she lived but a short time
after escaping from the blazing build-
ing, while the 2-year-old son was
burned to death.

This case was to have been tried at
the November term of the Bracken
Circuit Court, but the attorneys for
the Standard Oil Company, came for-
ward with an offer of compromise. In
bringing this suit Mr. Reed's attor-
ney alleged that the company had
mixed the coal oil and gasoline, there-
by causing the explosion. This is the
first case of this kind ever tried in
Kentucky.

BAD CHECKS

Flemingsburg Hotel Proprietor Caught
By a Swindler.

(Fleming Gazette.)
Several days ago Landlord Luke Dye
at the Merchants Hotel, lost \$25 and
\$25.00 protest fees by cashing a check
for a traveler who stopped at the
hotel for a short while. The fellow
registered as D. M. Keyes, and in pay-
ing his account of \$1.50, tendered Mr.
Dye a check for \$25, purporting to be
by Snow, Church & Company, on a
Knoxville bank. The fellow took the
difference in cash and nothing more
was thought of it by Mr. Dye until the
check came back protested with a note
that the firm had no such man in its
employ. Still there are many persons
who think hotel proprietors should
cash checks without question.

ENTERTAINS FOR BRIDES-TO-BE.

Mrs. George Wood Owens entertain-
ed with a delightful tea on Tues-
day afternoon in honor of the two
brides-to-be. The invitations were
given in honor of Miss Ethel Owens,
who is to be a charming bride of next
week, but when the guests were se-
ated to be served, at each place were
hand painted place cards in the shape
of a golden wedding ring, with Miss
Sue Armstrong's and Mr. W. W. Ball,
Jr.'s names inscribed thereon.

The announcement created a great
deal of pleasure for their friends and
Miss Owens in her gracious manner
suggested that they make it a double
wedding.

Mrs. Owens' guests were Misses
Ethel Owens, Sue Armstrong, Bessie
Johnson, Margaret Owens, Lucy Keith
Browning, Jennie D. Dobyns, Ellen
Shanklin, Ellen Kirk, and Mesdames
T. M. Duke, S. P. Browning, J. B. Rus-
sell, LeWright Browning, S. F. Reed,
G. L. Howard, James Riley, William
Reese, A. O. Taylor, Maurice Kirk and

HEAVY PRECIPITATION FLOODS SEWERS.

The heavy rains and snows of the
last few days have taxed the sewers
of this city to their limit, and in sev-
eral places they have not been able
to carry off the water and have over-
flowed the sidewalks. At the corner
of Market and Second street a pool of
water more than a foot deep has
formed and flooded the street and
car tracks, making traffic dangerous.

INDIAN BLOOD.

of the republic, an infusion of the blood of the Indian would have been considered a never spoke well for the half-breeds go on, many of our young men in having in their veins the blood of the Indian. Among the many good Indians the dead one was a view of the frontier. He was a rebel against the responsibilities of civilization. As many of them are now settling down and cultivating land like white folks, the virtues of his race may be better recognized.

Most of the aboriginal strains are thick witted earth born creatures, slow of thought and dull of apprehension. The Indian was quick, alert, nervous, little of motion, passionate. He was capable of affectionate loyalty and fiendish revenges. He had his own beauty of imagery and was not lacking in fine ideals. He was the poet of the stone age, a dreamer and mystic.

Other undeveloped races have gradually adjusted themselves to the white man's regimen of sober industry. The negro never rebelled at being a bawler of wood and drawer of water. But for the Red Man, tilling the ground has been but slavery to a proud spirit.

Once the owners of a continent, the Indian is but an insignificant factor in our life today. Only his blood has entered our race. Mrs. Galt's are proud of it, it is a sign and a sign of the age of the remnant of the race, how of endurance and imagination properly trained in the yoke of industry yet be valuable.

"Politicians anxious for a revival of high tariffs profess to fear that Europe will begin dumping its goods in this country as soon as the war is over," says the Portland (Ore.) Journal, Democratic and pro-Wilson. Which shows that the political editor of the Journal has not been reading the news dispatches very closely. Secretary of Commerce Redfield is one of the most vociferous alarmists in the matter of after-the-war dumping. And he isn't anxious for high tariffs. Neither is he much of a politician, judging by the havoc he has wrought in this administration.

The winning of battles does not settle who has the rights of the case. Jack Johnson could lick a very considerable number of clergymen, school teachers, editors or business men, but that would not prove that he is the best citizen.

It is astonishing what a crowd you can get out to a lecture, which otherwise would be very poorly attended, by serving four thimblefuls of tea and a couple of saltines to each guest.

The Presidents always used to see to it that their messages were so interminably long that no one would read them, but Mr. Wilson overlooks this wise precaution.

About now is the time to go out and buy those Christmas gifts for men which they won't have the least idea what to do with.

Fun--Well Done

Not Up To Her Standard.

"Have you any references?" inquired the lady of the house.

"Yes, mum, lots of them," answered the prospective maid.

"Then why did you not bring some of them with you?"

"Well, mum, to tell the truth, they're just like me photographs. None of them don't do me justice."

The class had been having a lesson on English history, and King Charles had been the subject. Wishing to see how much the children were "taking in," the inspector put the following question: "Can any one tell me who was the monarch who had long, black, curly hair?"

No response.

"Come, come, children! His name begins with a 'C.'"

Then up went one little hand. "I know, sir. It's Charlie Chaplin!"

CONFLICTING RAILROAD TRAFFIC

To travelers the frequent delays to passenger service by freight trains are very irritating. Even President of the United States are held up by some plodding freighter that may have the right of way or block the tracks by a smashup. Mr. Wilson returning from his last new York trip was subject to such a delay by a big smash that piled three freight cars over the line.

There is a big freight business this fall. The safe and speedy operation of these two very different kinds of traffic over one system calls for incessant vigilance on the part of railway men.

To the passenger fretting because his train is a half hour late, the freight train is a nuisance that should be sidetracked until all passenger business is out of sight. Yet the speedy operation of freight service is quite as important as even his valuable time. If no attention is paid to prompt delivery of merchandise, factories wait for material, labor lies idle, orders are not delivered on time, stores disappoint customers and business is congested.

If these were flush times for the railroads the business being done would call for large extensions of their facilities. The public could well demand it. Many single track lines need to be doubled, many double track roads need still more metal. A large addition to side trackage would greatly benefit many lines in giving passenger service a freer right of way. The public safety would be much better assured than it now is. But the public is suspicious of railroad investments under present conditions, and the roads are in no mood for spending much money.

The traveler who likens his train to an ox team as it dawdles along behind some obtruding freight, must therefore cultivate a philosophical patience. He should reflect on the critical character of this operating task under present conditions. Let him be thankful that he is not being deposited in the ditch by reckless engineers and conductors who are threatening their way through a traffic that often perilously exceeds the capacity of the road.

of present day London where the bridegroom happens to be a fighter, is cake decoration symbolic of the branch of his service. Toy cannons done in sugar, aeroplanes or battleships of minute proportions are used, as the case may be.

WHEN THE KIDNEYS FAIL

Maysville People Have Found That Ill Health Follows

Do you ever feel that you simply can't go any further—that you must have rest from that lame and aching back—relief from the constant, dead-tired feeling—freedom from those stabbing, darting pains? Likely your kidneys are worn and tired and need help. The kidneys work night and day, removing uric acid from the blood and other waste created by expenditure of strength and energy. Naturally a life of unusual activity doubles the duties of the kidneys and in time the strain generally tells. Doan's Kidney Pills have brought new strength to thousands of bad backs and quick relief to weakened kidneys, so users say. Let them do the same for you.

S. O. Duncan, blacksmith, Flemingsburg, Ky., says: "I had severe back-aches and my kidneys were out of order, their action being irregular. Hearing about Doan's Kidney Pills, I gave them a trial and was soon convinced of their merit. They strengthened my kidneys and back."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Duncan had. Foster-Milburn Co., Props., Buffalo, N. Y.

Gifted English Job.

(Big Sandy News.) Dr. J. W. Stephenson, of this city, who has been studying for several weeks at the Chicago Post-Graduate College of Medicine, was recently offered a position at good pay as a surgeon with the British army, according to his letter to friends here. He declined the offer of the British government on account of his interest in his practice in the Sandy Valley and his hopes of being able to establish a hospital here. Before he left Pikeville for Chicago he was instrumental in forming a plan, along with other business men of this city, for the establishment of a hospital here. As the aid of a large number of strong business heads throughout the county has been enlisted with him it can not but be successful. Dr. Stephenson expects to complete his studies at Chicago and return to Pikeville shortly after Christmas.

Good Suggestions

Now is the time of the year when people like to be given good suggestions for Christmas gifts.

A nice suit or an overcoat is an ideal gift to a man. They appreciate them more than anything else you can give them.

We are exhibiting a nice line of silk shirts. Give the boys silk shirts and make them glad.

Here are some suggestions we offer and you can save money buying them—

SHIRTS, SOX, NECKTIES, CUFF LINKS, HANDKERCHIEFS, HATS and SHOES.

DYNAMITE IN HIS BAGGAGE

Two sticks of tunnelite, a form of dynamite, were found in the baggage of this man, known as Abraham Cummings, as he was about to sail for Liverpool on the American liner St. Louis. He was arrested on suspicion of plotting to blow up the great steamship.

SIGNS OF DANGER

That Should Be Heeded By Maysville People.

There's serious danger in neglecting any weakness of the kidneys. The warning that Nature gives should not be overlooked. If troubled by too frequent passage of the kidney secretions; burning or scalding; if the secretions are highly colored and contain sediment when left standing—if you have backache, too, with frequent headaches and dizziness, make up your mind that your kidneys are affected and begin using some reliable kidney remedy. Deaths from kidney disease have increased in the United States alone, 72 per cent in the last 20 years. The risk is too great—you can't afford to delay. Maysville people recommend Doan's Kidney Pills. Can you ask for better proof of merit than the statement of this Maysville resident?

W. F. Lynch, 127 West Third St., Maysville, says: "My kidneys were weak and the passages of the kidney secretions were scanty and painful. Having used Doan's Kidney Pills before, I again got a box and they quickly restored my kidneys to a normal condition." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Lynch had. Foster-Milburn Co., Props., Buffalo, N. Y.

MEN, DOGS AND BONES.

Every dog looks after his own bone, for no other dog will guard it for him. Are we, as residents of this community, less alive to our own interests than the dog is to his? Many bones are lying around us in the way of opportunities for advancement, but we are prone to pass them by. We are too absorbed in the dime of the present to even see the dollar of the future.

This paper has more than once spoken of the advisability of every person working in harmony in a determined effort to make this a better and more prosperous community.

Like the dog, other towns and other peoples are guarding their own bones and are reaching out for more to replenish their store.

But what are we doing? In fact, we are doing anything toward this end?

Are we making any effort to increase the number of home industries and their outputs? Are we making any concerted effort toward increasing the wealth of the community and toward keeping that wealth in the community?

Are we doing anything at all of any nature toward building up our town and countryside, or are we just drifting with the tide and wherever the tide may take us?

The lowly dog looks after his bone, but what are we doing?

Better attend to that Christmas shopping now.

King Hunger has a way of pushing other monarchs off their throne.

Beware of Ointments for Catarrh That Contain Mercury

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions of reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price 75c per bottle.

That prison reform now agitated in America, is an old measure, is shown by a report from Japan that the Japanese tried out the idea over two centuries ago. Self government among the prisoners of Tokio prisons was established in the seventeenth century. It worked out satisfactorily, but was abandoned for some reason not known.

Masons were present in large numbers and good time was had.

After the degree was conferred, a social hour was held.

The reason Vinol was so successful in this case is because it is a constitutional remedy that goes to the seat of trouble.

The peptonate of iron contained in Vinol enriches and revitalizes the blood, while the strengthening, tissue-building properties of the extractives of cod's livers and beef peptonate aid in building up the tired, over-run-down system.

TOBACCO MARKET FOR DOVER.

(Dover News.) It is possible that Dover will have a loose leaf tobacco market next season. One of the most prominent tobacco men in Kentucky has expressed a willingness to put up one-half of the capital necessary to build a warehouse. The only thing asked of this community is that the farmers and the people of the town manifest a desire for the market. Now, if we want this industry, let some of our tobacco men and tobacco growers investigate the matter and see that the project is pushed to a consummation.

Edward Moore, of Bromley, Ky., and Thomas Hutchins, of Covington, Ky., well known marine divers, have gone to New Orleans, La., where they have been employed to recover valuables from a steamer which sank in the Mississippi river during a storm last July.

A cylinder of the engine on the steamer J. T. Hatfield, owned by the Hickey Transportation Company of Cincinnati, burst a few miles below Gallipolis Tuesday night. Part of the machinery went overboard. The boat and tow were landed. Several of the crew had narrow escapes from flying pieces of the steel cylinder.

Frank J. Stamm, formerly of Ripley and well known in this city, was a heavy loser by the wreck of his schooner off the Florida beach, as the following from the St. Petersburg (Fla.) Independent of December 4, says: "News of the wreck of the snapper schooner Nellie Grant and the loss of two lighters belonging to F. J. Stamm and W. A. Walshingham reached here when Frank J. Stamm, Jr., returned from Boca Grande this morning. Mr. Stamm lost all of his clothes except what he had on the night of the storm. He also lost the launch Snapper, a lighter, several drums of gasoline, tow lines and ropes, \$50 worth of groceries, and stoves and cooking utensils."

SCHOOL TEACHER

Anaemic, Run-down, Nervous—How She Recovered.

There are so many cases like this right here in Maysville that we are publishing this interesting letter with the hope that some of our customers will try Vinol, and get the same happy result that Miss Baez did.

Key West, Fla.—"I am a teacher and became anaemic, nervous, run-down, no energy or desire to do anything. I could not sleep and had that languid, nervous feeling that made me a burden to myself. I had taken various tonics without benefit. I heard of Vinol and tried it. Soon I had a good appetite, could sleep all night and it built me up so I have the ambition to do any kind of work." Mary L. Baez, Key West, Fla.

The reason Vinol was so successful in this case is because it is a constitutional remedy that goes to the seat of trouble. The peptonate of iron contained in Vinol enriches and revitalizes the blood, while the strengthening, tissue-building properties of the extractives of cod's livers and beef peptonate aid in building up the tired, over-run-down system.

OPEN AIR SCHOOLS

Institutions Where Children Are Treated and Taught At the Same Time.

"Say, teacher, how sick's a feller got ter be ter get in this 'ere open air school!"

This was the greeting to one of the teachers at the Elizabeth McCormick Open Air School in Chicago the other day by a puny little fellow who had been envying the sick kiddies the good time they were having at studying, working, sleeping and playing in the open air.

Open air schools to the number of nearly 500 are now maintained all over the United States. Some of them this winter in the northern states will hold sessions when the thermometer is down to zero or below. Others will enjoy the balmy winds of Southern California, Louisiana or Alabama. The open air school idea is confined mainly to these children who have tuberculosis or who are run down, anaemic and likely to contract the disease.

In the open air school movement Red Cross seals have played and are still playing an important part. The seal money, through the Anti-Tuberculosis societies, has been the means for experimenting and convincing the hard headed school boards of the wisdom of the plan and also for providing food, clothing and special nursing care which the public funds could not furnish. Red Cross seals are among the children's truest friends.

These Red Cross seals are on sale in Maysville at the following places: Pecor Drug Company, M. P. Williams, J. J. Woods, Chenoweth Drug Company, Merz Bros., D. Hunt, J. T. Kackley, De Nuzie, Maysville Gas Company, State National Bank, G. H. Frank & Company, Barkley Shoe Company, C. P. Dieterich.

Mrs. Mary Kathryn Truitt, widow of the late S. B. Truitt, of Lewis county, was born January 3, 1835, and died at her home on the Ridge, near Manchester, at the advanced age of 80 years, 11 months and 9 days. She was married to Mr. Truitt on December 16, 1850.

Edward Bryant, of the firm of Bryant & Kirk, Maysville, was here Tuesday and purchased a barrel of alfalfa hay—Bracken Chronicle.

Misses Catherine Scholter and Mary Effie Stivers, of Ripley, spent several days last week with Dr. and Mrs. J. Allen Dobson, in this city.

Leslie Griffith, son of Jett Griffith, of near Stokewell, Bracken county, has been appointed town marshal of Mt. Olivet.

Colonel Alexander F. Martin attended the opening of the new Ripley tobacco warehouse last week.

At Mt. Olivet last week, Silas Jacobs, of Bracken county, was admitted to the bar to practice law. For several years Mr. Jacobs was one of the county's well known instructors, but for the last year or more has been a rural carrier running out of Foster, where he has given satisfaction to the patrons.

Toys and dolls at Jno. O'Keefe's.

The Young Peoples' Missionary Society of the Second M. E. church, South, will meet with Mrs. H. O. Wood on Houston avenue, Monday evening, December 20. This society has twenty members and has been organized only about three months. Election of officers will be held and Christmas talks will be given. All members are urged to be present.

How Are Your EYES?

Presbyopia or old age sight is a condition which makes its presence felt at about the age of forty. It is an unfortunate and a misunderstood term. People feel that it is not merely a sign of age, but that they are really old. That is not so, however. Sometimes they put off wearing glasses until long past the time when they should have had aid. We advise you to let us test your eyes.
